VISION SCREENING SERVICE 2018/19 (OPT OUT FORM)

Dear Parent / Guardian,

A member of the Vision Screening Team from Royal Bournemouth Hospital will be visiting your child's school shortly to assess all children in the reception year.

This check is recommended by the government in order to pick up undetected, treatable vision problems in your child's first year at school.

The assessment only takes a few minutes, and will involve measuring your child's vision with each eye in turn using a simple letter matching test.

If there are any concerns from this assessment, you will be offered an appointment at your nearest hospital eye unit for further investigation.

In order for a referral to be made, your school will need to share your contact details and GP information. If you are not happy for your details to be shared, please fill out the form below.

Please note that this means your child will not receive this test.

Only complete the form and return it to the school if you do **NOT** wish your child to be tested.

Please be aware that we are unable to access your child's medical records prior to the visit. If your child is currently under the care of a hospital eye unit or optician there is the option to Opt Out. This eliminates the possibility of a duplicate referral.

It is the responsibility of the school to ensure we receive all returned forms.

If you have any questions, please contact the Orthoptic Department on: 01202 704422
