

Dear Parents and Carers.

We are writing to you to ask if you would like to buy a metal water bottle, instead of the plastic ones that we usually offer. We have put a picture below of what one will look like.

As a school, we are trying to use less plastic. Sadly, 80% of plastic bottles end up in landfill. This means that some of it ends up in the sea. Eventually, it will turn into poisonous plastic dust.

If you buy a metal water bottle, it should last your child the whole time they are at Frome Valley First School.

If you would like to join this scheme please return the below slip by next **Monday 16<sup>th</sup> July**.

Thank you for helping us and our environment.
