

- 1. Let your child play **Times Table Rock Stars**.

 Activities are specifically design to match the times tables your child should be working on. Your child has a log in stuck inside the front cover of their homework book.
- 2. Practise spelling, grammar and punctuation using games on BBC Bitesize SPAG, KS1 for revision and addressing gaps, then KS2.
- 3. Hear your child read a few times a week and read to them! **Bedtime stories massively improve vocabulary knowledge!**
- 4.Other useful websites include http://www.bbc.co.uk/bitesize/ks2/science/ for science and http://resources.woodlands-junior.kent.sch.uk/ for general curriculum information and activities.

Frome Valley CE First School

Year 3

Curriculum Statement

Autumn 2nd Half

Year 3 Curriculum Overview

English Art & Design Computing Writing • design and write programs that Reading **Grammar and Spelling** To learn from the structure, accomplish specific goals To use a dictionary to check the to use correct punctuation vocabulary and grammar of meaning of words. use sequence, selection, and including speech marks. similar text which they are • To increase their familiarity use prefixes and suffixes repetition in programs planning and writing for. with a wide range of texts, and understand how to • explain how a set of instructions To plan, draft and proof read including myths and legends add them. their writing work and to detect and correct errors Identifying how language, Read and spell common Use connectives, prepositions in them. structure and presentation exception words. and adverbs to express time contribute to meaning. and cause. **Design & Technology** Geography to use research and design criteria to design a product **Mathematics** to select from and use a wide range of tools and materials to accurately make a product Add and subtract 3-digit add and subtract numbers with Solve number problems and evaluate their work against the numbers with ones and tens up to three digits, using formal practical problems money and mentally and with 2- and 3written methods of columnar design criteria. measure. digits numbers using written addition and subtraction. methods. • Tell the time to the nearest Modern Languages minute Music recall and use multiplication In French: and division facts for the 3, 4 • listen attentively to spoken language and and 8 multiplication tables show understanding by joining in and responding • explore the patterns and sounds of language through songs and rhymes **History** • appreciate stories, songs, poems and rhymes in the language. Science **Education Education** Religious **Physical** • to work scientifically including understanding how to conduct a fair test. Why is it important for Christians to • compare and group together different kinds We will focus on dance and football. trust in God? apply and develop skills of flexibility, of rocks on the basis of their appearance and strength, technique, control and balance simple physical properties to discuss and share thoughts about to play competitive games recognise that soils are made from rocks and challenging ideas to apply basic principles of attacking and organic matter. to learn religious stories and defending. understand what they teach people
